

HOW TO TAKE AN ONLINE STUDY WITH PRECEPT CAMDEN

We would love to have you join our online class. This is the way it works: we upload the audio from our class discussion each week right after our Tuesday morning Bible study and it stays on the website. So you are able to complete the study at your own convenience. Visit [Precept Camden](#) and check out the [Listen Here](#) page and [Join Our Current Study](#).

If you join our class, you will need to order a book. There is a link on the Join Our Current Study page that will allow you to order the book. Some books are available in [Precept Camden's store](#) which helps defray a small part of the cost of maintaining the website. *Precept Upon Precept* workbooks are available only from Precept Ministries. Precept Camden encourages you to purchase with purpose from Precept Ministries International whenever possible in order to support the work of that ministry.

You will do your lesson each week and then listen to our *unedited* class discussion. Our online students tell me that they get a lot out of listening to the discussion. Inevitably, someone will ask a question that they had, too. **Wearing headphones while listening is highly recommended and helps hear everyone's comments better.**

If you decide to take the next study with us, please let us know so we can add you to our email list. We share weekly prayer requests. Online students can also email any questions or comments. We want our online classmates to feel as much a part of our class as possible. If you'd like, we can also assign you an accountability partner who will communicate with you via email and/or phone to help you stay connected with the class and with your weekly lessons.

Please let us know if you have any more questions by emailing us at preceptcamden@gmail.com.
